

# Your dream job does not exist. You must create it.

**But where do you start? Apply for QVARTZ' mentoring programme and let us guide you.**

At QVARTZ, we want to help promising students make well-informed decisions regarding which career goals to pursue and how to achieve them - whether in management consulting or elsewhere. In our mentoring programme, you will get a personal mentor who will support, challenge and guide you in your quest to make your career dreams come true. The programme consists of one-to-one sessions with your QVARTZ mentor as well as social events for all mentors and mentees.

You are eligible to apply if you are a third-year BSc student or an MSc student. The programme will be kicked off on October 26. Submit your application at [quartz.com/career-events](http://quartz.com/career-events) no later than October 1, 2017. Please include your CV and grade transcripts. In your application, you should put strong emphasis on your motivation for getting a mentor.

If you have any questions, please contact Ida Dillekås at [ida.foeid.dillekaas@quartz.com](mailto:ida.foeid.dillekaas@quartz.com).
